DEATH ON A RAILROAD .- Mr. Seaman, of Jer. sey City, was killed on the Boston and Providence Railroad last Tuesday, in the same manner in which several lives have been lost. He was standing on the front of a car, when the pin broke which connected it with the car before it. Under the impulse of the moment, says the Journal of Commerce, Mr. Seaman jumped for the car before him, but fell, and was instantly crushed beneath the car he had jumped from, which was still running furiously. Every prudent person, while traveling on a Railroad, will be careful always to keep himself within the cars; a position any where outside is always full of danger.

During a sale of furniture in South Jay. street, Baltimore lately, \$100 were stolen from the wardrobe of a man who had been boarding there. The presumption is that some regularly practised burglar attended the sale, and availed himself of the confusion which generally prevails on such occasions.

Bushwick, October 14th. 1841.

Dear Sir—I received yours of ,he oth inst, yesterday afternoon, and, according to your request, hasten to give you an immediate answer.

In relation to your Medicine, I most willingly say what I know of its good quarities. Between my family and friends, we made use of both bottles we received from you. In the first place, I had considerable distress in my bowels at two different times, and each time I took some of your medicine, and received almost immediate relief. We tried it on one of our little ones, and it produced a similar effect. We let a sister, Mrs. Rider, have some of it for her babe, a child that had had the bow-I complaint for some days very bad, and she made use of it with equal success, and thinks there is no medicine to equal it for children who suffer from that complain. She has recommended it to several of her friends, and is willing that her name should be joined with ours, as believing it to be the most effectual cure for that complaint that we have ever made use of.

The public are particularly cantioned to beware of counterfeits, to detect which they have only to examine the directions around each bottle which will invariably be signed by the proprietor in his own nandwriting.

New York, Nov. 18, 1842.

My Dear Sir—It has become so commou lately to puff medicines by letters, that I would now refrain from any expressions of my feelings or opinion, did I not feel compelled to speak in justice to you, and out of a desire to serve my fellow men. You remember with what reluctance I was induced to try Scarpa's Oil for Deafness, for I felt convinced, alternany ineffectual attempts, that a deafness of ten years' standing could not be cured by any medicine; but will you believe it when I tell you on my second bottle I can hear almost as well as any member of my family. The effect upon me has been magical—my former existence seems like a dream; and the pleasure of listening to and hearing conversation carried on in an ordinary tone of voice, after being so long subjected to the nise of the ear trumpet, is almost transporting. I do not much tike to have my name in print, but as the above statement may do some good, I have no objections to your using it.

Mr. B. Barton Gumpert, Philadelphia.

Dr. B. B-II—Dear Sir—I take this opportunity of expressing my gratitude to you for the great benefit I have received from the use of "Scarpa's Oil." for Deafness. From a cold I caught six years ago I had become quite deat; so much so that I lost all relish for society. But I lelt it most in my business. I was reall, quite tired of doing business—it was so much an effort for me—I had tried a number of Physicians and got no better, and thinking very little of patent medicine, I thought my case was hoppeles; I was, however, induced, wire an injour city last summer, to try "Scarpa's Oil." I have been using it now about two months, and I think I hear as well as ever. I feel as though I was the happiest man in the world. This Oil may not cure every one, but as it has done me essential service, I would recommend it earnestly to

DANDRUFF, or Loss of Hair, is caused by a languid or obstructed circulation in the small blood-vessels which supply the scalp and hair with nonrishment, in couse queue of which the perspiration becomes thick and clammy and dries on the surface, forming a crust, called dandruff, which clors up the pores of the skin, and by its pressure against the roots of the hair prevents it from receiving sufficient nourishment, retain vitslity. The hair then becomes harsh and unpleasant, changes color and falls off. This unhealthy affection is very speedily and effectually cuted by JAYNE'S HAIR TONIC, which revives the domant powers of the sorface vessels, removes the dandruff, and produces a new and healthy growth of hair to supply the old; and baldness is prevented or removed where is already exists.

The following certificate is selected, which sufficiently proves its extraordinary virtues:
